

**Administrative Relief Criteria**

Administrative Relief may only be granted if it is found that the application meets the criteria below. A separate sheet of paper may be used if additional space is needed.

1. The relief will not create a burden on adjacent property owners or conflict with the zoning district's purposes.
2. The relief is necessary to allow efficient use of the property due to site conditions or circumstances that do not commonly affect properties in the district.
3. The relief does not convey a right or privilege that would be unavailable to similarly situated properties.
