Re: Change in Erosion and Sediment Plan Review Contribution Address

Dear Audra:

The Coastal Soil and Water Conservation District has had changes in support staff and has made changes in where Erosion and Sediment Plan Review Contributions are to be mailed. We ask that you replace the old form with this attached new form in the package passed out to developers, builders, and etc. where erosion and sediment review application are required for land disturbance.

All site plans for E&S Review are still to be mailed to GSWCC office at 4310 Lexington Road, Athens, GA 30605. The only change is where the Erosion and Sediment Review Contributions are to be mailed.

The Coastal Soil and Water Conservation District utilizes these funds to provide educational training and material for planning and zoning staff, inspectors or engineers holding the Level 1A, Level 1B and Level II certifications, plus, provide educational material to the general public on the need to preserve our natural resources.

Your assistance in making this change in the materials you pass out at the time of a request for soil disturbance would be appreciated.

If you have any questions contact me at any time.

Sincerely,

*Jerry Holcomb*   
Coastal Soil and Water Conservation District  
Liberty County Supervisor  
District Treasurer
